AI-Empowered Leading SAFe (6.0)

Duration: 2 days
Audience: Chargé de projet

Who is this training for?

Agile project managers, Scrum Masters, Product Owners, and development team members: beginners, intermediate, or advanced.

Training objectives

- Gain an in-depth understanding of all roles, aspects and attributes of the SAFe approach.
- Prepare for and successfully pass the Certified SAFe 6 Agilist (SA) certification.

Summary

Be recognized as the expert in Agile project management at scale with the Scaled Agile Framework for enterprises (SAFe). This training, which is very focused on interaction, allows you to successfully pass the Leading SAFe 6 certification. Through a series of lectures and practical exercises, participants prepare for the Certified SAFe® 6 Agilist (SA) exam and receive coaching from the trainer. The AI-Empowered approach aims to strengthen the practice of SAFe by integrating artificial intelligence as a lever for understanding, efficiency and decision-making, while respecting Lean-Agile principles and human responsibilities.

Course outline
