Conference : Feedforward: Conversations That Propel the Future

Duration: 1 hour
Audience: Pour tous

Summary

What if your interactions became levers for transformation rather than mere feedback on the past? Feedforward is an approach resolutely focused on action, trust, and growth. It helps build a culture of continuous improvement where every exchange becomes an opportunity for individual and collective development.

In this inspiring conference, Marie-Hélène Demers, business coach, speaker, and Executive Vice President of Talent and Human Potential, invites you to explore powerful practices for fostering constructive, respectful, and motivating conversations. With more than 25 years of experience in business transformation and human development, she shares a transdisciplinary and systemic vision of professional growth, at the intersection of technological, human, and organizational challenges.

Through practical and compassionate approaches, you will learn to craft messages that inspire action, strengthen trust, and stimulate collaboration. Feedforward is more than a technique, it is a mindset that transforms relationships, teams, and organizations.
