

Managing a Sharepoint site on Microsoft 365

Duration: 2 days

Audience: Pour tous

Who is this training for?

Any manager or anyone who regularly works in a team who wants to set up effective work, collaboration and sharing processes.

Training objectives

- Discover a set of methods and techniques in SharePoint to better organize and manage documents.
- Distinguish a team site from a communication site.

Summary

Are you looking for simple, effective and concrete techniques to increase efficiency in the management of your documents in SharePoint? This training will allow you to learn how to build SharePoint sites to manage your documents efficiently. In addition to discovering the essentials to put in place to develop a practical and effective SharePoint site, you will learn the common mistakes to avoid. Our approach is designed to teach you how to use SharePoint to its full potential without coding. We offer you simple and proven methods to help you improve the efficiency, mobility, collaboration, and corporate memory of your teams.
