

# Microsoft Bookings for better planning

Duration: 0,5 day

Audience: Pour tous

## Who is this training for?

Anyone who wants to sell services and schedule appointments with customers through a website by offering an online calendar service.

## Training objectives

- Be able to create a booking calendar.
- Be able to use Microsoft Bookings for online service booking.

## Summary

Microsoft Bookings makes it easy to schedule and manage appointments with your clients or colleagues. By integrating a booking web page with Outlook, it optimizes your calendar and makes it easy for customers to book. During this training, you will learn how to create personal or shared booking pages, create your services, assign slots to speakers, share your booking pages and much more.
