Preparing for Scrum Master Certification

Duration: 2 days
Audience: Chargé de projet

Who is this training for?

1. Agile Project Managers
2. Scrum Masters: Intermediate or Advanced

Training objectives

- Prepare for and successfully pass the Scrum Master certification
- Acquire a common vocabulary

Summary

Be recognized as the expert in Agile project management with the Scrum approach. This training, which is very focused on practice and interaction, allows you to successfully pass the Scrum Master certification. With the help of a series of lectures and practice questions (quizzes), you will prepare for the Scrum Master exam by completing the course with a simulation exam and benefit from the coaching.

Course outline

- Foundations of the Scrum approach: values and principles, roles and responsibilities, artifacts and events
- Importance of each event and how to minimize project risks
- Scrum rules
- Practical questions and simulation exam

Approach and methodology

You will carry out a series of exercises and workshops and benefit from personalized coaching from the trainer. In addition, the latter will provide all the necessary explanations in the form of lectures, exchanges and examples on cases.
